

How was your childhood like?

A research about what people used
to do when they were a kid.

Things have changed...

- My grandmothers did not use to work, but all my female cousins and I work.
- My grandmother got married when she was 25 and people used to say she was too old. I got married when I was 24 and people used to say it was too early.

Things have changed...

- My grandmother had 7 kids. I have one boy and people say it is enough.
- My grandfather used to walk to his job. He used to come home late and there was no problem.

I used to play outside only on the weekends and I used to go home before the sunset because it was a little dangerous.

What about childhood?

- Create a questionnaire and ask people about what they used to do.
- You have to ask at least 20 people:

10 who are up to 40

10 who are less than 15

Dear participant,

This is a research of English class. Our goal is to compare how things have changed concerning childhood habits. We will make you some questions about what you used to do when you were a kid.

Thank you very much for participating.
